

E-Zee Tear® Lightweight

~ A Lightweight Tear Away Stabilizer

E-Zee Tear® Lightweight 1.0 oz. is a lightweight Tear Away stabilizer. Use it alone for small solid designs, or in combination with E-Zee Weblon No Show, E-Zee Poly Mesh or E-Zee Cut® Performance for added stability when embroidering on performance wear fabrics. Tear Away stabilizers should be used with stable, non-stretchy fabrics.

How to use Tear Away Stabilizers

1. Select a piece of pre-cut E-Zee Tear® Lightweight to fit your hoop size.
2. Hoop by placing the stabilizer underneath the garment.
3. Embroider the design and remove the embroidered item from the hoop.
4. Carefully tear the excess stabilizer away to avoid excess pressure on the design.

Use along with ...

E-Zee Weblon No Show or E-Zee Cut® Performance

1. To hoop, place the E-Zee Tear® Lightweight stabilizer down first, then sandwich the Cut Away stabilizer in between the garment on top and the Tear Away stabilizer on the bottom.
2. Embroider the design and remove the embroidered item from the hoop.
3. Tear off the excess Tear Away stabilizer first.
4. Trim the excess Cut Away stabilizer with scissors.
